A black shoe is positioned on a mechanical testing device. The device has a white base with a circular platform and a vertical column. A digital display on the column shows the number '10.08'. The shoe is being held in place by a black strap. The background is a light gray surface with some decorative teal and black lines.

Features

Shoe-Friendly:

Easily fits various shoe sizes for maximum convenience.

Precise Force Control:

Manage foot force with precision for optimal support.
